

PUMP PONTOONS & ACCESORIES

DESIGN, MANUFACTURE, TRANSPORT & INSTALLATION

DESIGN EXPERTISE

- > Very experienced design team uses the latest 3D CAD technology
- > Efficient, accurate, on time and on budget
- > Custom designed to any required specifications or environmental conditions

MANUFACTURING CAPABILITIES

- > State of the art rotomoulding machine for polyethylene pontoons and fittings
- > Highly equipped metal workshop for frames, ramps, walkways, customized parts
- > Concrete pontoon fabrication plus CNC routing

TRANSPORT SUPPLY & INSTALLATION

- > A fleet of trucks and cranes available as required
- > Experienced, highly skilled workforce for all facets of construction and installation
- > Road transportable pile driving rigs and barges
