Pontoon Additions

Enhance your pontoon with our range of customised accessories

Jet Ski Docks

Add a stylish Superior jet ski dock to your new pontoon and ensure your ski is stored completely out of the water. The standalone dock with no moving parts is slip resistant and has a UV20 rating to ensure a long life in the harsh marine environment. Seamless connection to pontoon.

Light Tower Power Pedestal

Add power and water to your pontoon with a rotomoulded light tower power pedestal. Equipped with a light sensor to automatically turn the LED lights on and off, it also has 2 x 240v outlets and a water tap. Other socket sizes and configurations are available on request.

Ladder

Fitted as a safety device or for easy access for swimming, the deluxe ladder is manufactured from marine grade aluminium and consists of 3 steps making the ladder very easy to use. Other options available on request.

Boatlift

The Superior D Series Boatlift utilises 'drive on pontoon' technology and is available in 3 sizes to suit vessels up to 7 metres and 2 tonne. It provides complete walk around access on the pontoon after raising with remote control. Seamless connection to pontoon.

Pontoon Lights

Light up your pontoon with our range of pontoon lighting with all posts manufactured from marine grade aluminium. Available in deck mount or water mount, the standard light post is 2.4 metres high and designed for a flouro or led light.
